

New Jersey

The Garden State

Motto: Liberty and Prosperity

Prophetic Declaration: "The Watchman State"

Dutch Sheets prayed, "Lord, You call it the watchman anointing, equipping and enablement. I'm asking You to put a mantle of prayer for watchman intercession on everyone across this state so that New Jersey can be the Watchman State. New Jersey shall say, "This gate is secure, America. New Jersey is on duty."

Chuck Pierce followed with this prophetic word from the Lord: There are vipers working in Jersey City and Newark. Find those vipers so they do not become snipers. Look carefully and watch, for I have found a nest, and I am ready to break the eggs of that nest so they do not hatch out. I have raised up this time and released this anointing because you must watch now. I am calling you into a night watch, and as you watch in the night, you will see what is wanting to break out and even be harvested in the day. Establish the night watches and watch these next two and a half months. Watch carefully, for you are playing a major part. If you will gather the state to pray for the first 21 days of August, one country per day, during the fourth watch of the night, I will break the power of the enemy from off of your state." They began the "Fourth Watch of the Night Prayer Initiative." Each of the 21 counties in New Jersey was assigned a 3 A.M. to 6 A.M. watch. It was successful as vipers did not become snipers. They were apprehended with many weapons and planning a mass murder. Many lives were saved at the beginning of the fourth watch!

On our Prayer Trip in May 2021, we had the opportunity to take Dominion where George Washington crossed the river in Trenton Christmas night 1776 which turned the war for the Revolution and our Declaration of Independence. It was one of the most anointed places the TMM team has gone and no one wanted to leave. In fact, Cheryl got slain in the spirit.

New Jersey Prayer Focus:

Pray for a restoration of righteousness and for more intercessors.

Pastoral teachings released in Trenton against territorial warfare have shut down the prophetic and apostolic declarations needed to open the heavens over that city. Pray for repentance about this, so the block will be removed.

New Jersey has serious governmental issues and graft which this heavily Democratic state hasn't addressed. Plus, they have a dubious history of election integrity. The Governor had a recall election earlier this year which was almost successful.

Over 700 of the individuals killed on 9/11 were residents of New Jersey.

They were one of a handful of states that had the highest Covid deaths largely due to putting Covid patients in nursing homes.

They also have one of the highest crime rates and taxes in America.

They are ranked #49th percent in Economic Outlook which has driven many residents to move south

Named for the island of Jersey in the English Channel, New Jersey was among the original 13 colonies. In 1787, New Jersey became the third state to ratify the U.S. Constitution and the first state to sign the Bill of Rights. In 1790, Trenton officially became the state capital of New Jersey.

Trenton, city and capital of New Jersey, U.S., seat (1837) of Mercer County, and industrial metropolis at the head of navigation on the Delaware River. It lies 28 miles (45 km) northeast of Philadelphia, Pennsylvania, and about 55 miles (89 km) southwest of New York City

The Port of New York and New Jersey is the port district of the New York-Newark metropolitan area, encompassing the region within approximately a 25-mile (40 km) radius of the Statue of Liberty National Monument. It includes the system of navigable waterways in the New York–New Jersey Harbor Estuary, which runs along over 770 miles (1,240 km) of shoreline in the vicinity of New York City and northeastern New Jersey, as well as the region's airports and supporting rail and roadway distribution networks. Considered one of the largest natural harbors in the world, the port has become the second busiest port by tonnage in the United States as of 2019, and the busiest on the East Coast

New Jersey has the highest population density of any U.S. state.
