The State that Reversed the Curse. Dutch Sheets spoke, "You are going to see a completion of the breaking through of racism, denominationalism, sectarianism--even in the government of this state. You will see people begin to come together and lay down divisive things. You are going to see political leaders bury the hatchet and begin to come together. The Lord said, "I am trying to fracture something that is centuries old, and it is going to permeate every area of culture and society." Dutch continued, "I'm hearing the word "cycles." Disconnect and reconnect. Disconnect through repentance, through forgiveness. Establish proper alignment so the next generation of South Carolina will get life instead of another cycle of death, racism, hatred, infirmities coming through occultic things.
