

Georgia

March 6th– March 13th

Chuck Pierce and Dutch Sheets have prophesized that “Georgia is one of my Gates, it is a Governmental Gate. They will receive a blessing that cannot be denied.” (Matthew 10:40-42)

Georgia is to be Gatekeepers. That they would open Gates to the Lord and close them to the enemy. Georgia is meant to be an Open Portal a place of Revelation, Fresh Worship and Restoration. A healing of racial division and strife.

The G8 Summit went to Georgia in 2004, Chuck Pierce prophesized that a high-level summit was coming to Georgia. The Destinies of Nations will be shaped in Georgia.

Chuck Pierce has Prophesied that Georgia is a Governmental Gate and the sound of Heaven is coming to Georgia. It's a Shout of the King. He roars out of Zion-out of Georgia. Before this state can take ownership there has to be a removal of hostilities between nations and ethnic groups. There is a release from the bondage that is in the bloodshed in this state in past oppressions that have been linked with slavery, domination and ruler-ship.

He and Dutch Sheets identified 6 sites in Atlanta where there was Covenant Breaking and Bloodshed. Each site was visited, sins confessed, demonic structures uprooted, repentance done and god's grace of reconciliation, restoration, recovery and revival released.

Note: We may need to have a Taking Dominion Trip prior to the 2022 elections to ensure these strongholds are nullified.

Dutch decreed last year that God is breaking the power of Strongholds and will send revival.

Prayer Points for Georgia:

1. Georgia's politics have been ruled primarily by Democrats since the end of Reconstruction after the Civil War. One example is Stacey Adams who got the Governor and Secretary of State agreed

to Ballot Harvesting and other non-legislative approved Voting Rules in 2020. We know that Georgia has many duplicates, dead and moved out of state voters on their records and we saw back-up ballots taken out from underneath tables in the middle of the night.

2. Due to the above-mentioned Voting irregularities and Criminal Actions, we need to earnestly pray that the Lord would put Godly Leaders in every position in the 2022 elections.
3. With the slave legacy of Georgia, it's amazing that Georgia has many African American individuals running for office including Herschel Walker for Senator, Vernon Jones for Governor to name a few.

Brief History of Georgia:

State Capital: Atlanta

Georgia's Motto is: "Wisdom, Justice, Moderation." Our Behavior will be Just and Wise.

Georgia's early economy was based on the slave-plantation system. It was one of the first states to secede from the Union in 1861, as Georgia strongly supported the Confederate States during the Civil War.

It was prophetic that Georgia was home to Martin Luther King, Jr. and the headquarters for the Civil Rights Movement.

President Jimmy Carter's home is in Georgia. He has made an impact with his Habitat for Humanity organization to build homes for the needy.
