

Nebraska

Cornhusker State

Motto: Equality Before the Law

The Unique State

Capitol: Lincoln

The Lord said He would use Nebraska to surprise His people and bring them to the attention of the nation.

The Lord said that Nebraska would be used in 2 areas to affect the nation. First was to tear down false ideology of humanism, intellectualism and the soul man. The second area was to bring supply--food, funds, and a revelation for times to come. (Dutch Sheets' words)

Nebraska will be used to tear down false ideology and bring supply of food, funds and revelation to the nation - it has a Joseph anointing.

Nebraska has a unique governmental structure and will be one of seven states to arise and hold the keys to the future for Americas governmental arena. As Nebraska meets to worship, God will cause the atmosphere to change and push back that structure that is trying to overshadow it and the nation. Arise and see the Glory of the Lord!

I've attached the Prophetic Flag below. The central image is of a "horn of plenty", a type of storehouse. Joseph filled storehouses of provision for the future throughout the nation and released it in time of need so there was enough for his nations and those around him came to buy. There are 7 keys pouring out of this horn, seven is the number for divine completeness. These keys represent the fullness of revelation and provision to come forth. Within the cornucopia is corn and sheaves of wheat because Nebraska produces much of both grains in the natural and being a they are symbols of abundance. Also, the wheat sheaf is the icon for the tribe of Joseph.

The background is swirling golden fire symbolic of the presence of God and pure revelation.

The vision for this flag was gleaned from excerpts from the book, "Releasing the Prophetic Destiny of a Nation" written by Dutch Sheets and Chuck Pierce. This book was written from the call of God on their lives in to go to each state in America to link with ministries in that state and decree the destiny of God for that place and stir up a prophetic army of intercessors for America.

Prayer Points:

1. We need to pray that Nebraska walks in its prophetic destiny,
2. The state's biggest overall challenges for residents include food security, healthcare supplies, inadequate technology, and childcare
3. One of the election voting system companies, ESS is headquartered in Nebraska. We know it has challenges and can be hacked.
4. Nebraska is a relatively conservative state. Both the governor and US Senators are Republican. In fact, the ranking member, Charles Grassley is running for re-election this year. The state only has 3 congressional seats all of which are held by republicans.
5. Hank Kunneman and his wife Brenda are pastors of Lord of Host Church in Omaha, NE. He is very prophetic and often appears on Victory Channel's Flashpoint program. His church is very rapidly growing and we pray a tremendous revival hits the entire state.
6. Warren Buffet's Berkshire Hathaway is headquartered in Omaha. He is a major funder of Democrats and also very involved in the Cabal election cheating and other nefarious activities

Nebraska is said to have more miles of river than any other state.

Boy's Town is located in Omaha, Nebraska.

It's also known as the Tree Planter's State. This is because Arbor Day, a day when trees are planted throughout the country, started here in 1872.

The world's largest wholly mammoth fossil was found in Lincoln County.

The name Nebraska comes from an American Indian name meaning 'flat water'.
