WEAVER WORLD NEWS REPORTS

HEALING THE WOUNDS OF HISTORY

A Spiritual Revitalization at Fort Necessity

In the heart of Pennsylvania, where the echoes of past conflicts still whisper through the land, a powerful journey of repentance and restoration has unfolded. At Fort Necessity, a pivotal site of early American history, we embarked on a divine mission to heal the spiritual wounds of our nation and restore the birthright envisioned by William Penn—a land of democracy, morality, and spiritual integrity.

FORT NECESSITY: THE WOUND OF AMERICA

Fort Necessity stands as a poignant reminder of the skirmish that ignited the French and Indian War, marking the young George Washington's first military engagement. This battle, marked by betrayal and deception, set off a chain reaction that rippled through the Seven Years' War, the War of 1812, and beyond, touching five continents and six nations. As we stood on this hallowed ground, we felt the weight of these historical wounds and the urgent need for spiritual restoration.

Repentance and Restoration

Our team gathered at Fort Necessity to repent for the betrayal, deceptions, treacheries, and divisions that have scarred our land. We sought to heal the broken covenants with Native Americans, the thefts, the rebellion, and the dishonor that have tainted our history. By acknowledging the countless sins at

Restoring America's Spiritual Birthright and Embracing Divine Destiny

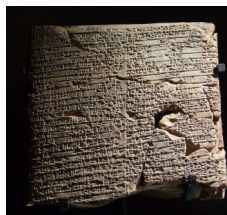

this site, we aimed to restore the original intent of America as a nation under God's timing and authority, free from the rebellion and self-kingdom building that have led us astray.

The Mason-Dixon Line and the Call for Unity

The Mason-Dixon Line, a symbol of division during the Civil War, also bears ties to these historical wounds. Our prayers extended to this boundary, seeking to mend the fractures it represents and to restore unity and brotherhood across our nation. We invoked the Washington Chaplaincy, calling for a revival of honor, love for our neighbors, and religious freedom.

Confronting Ancient Evil: The Gilgamesh Tablet

In our quest for spiritual cleansing, the Lord revealed a deeper layer of hidden evil: the Gilgamesh Tablet housed in the University of Pennsylvania Museum. This ancient artifact, linked to the Nephilim, symbolizes a root system of evil that has taken hold in our land. We journeyed to the museum, battling physical and spiritual obstacles to repent and renounce this ancient evil. Our prayers, coupled with the symbolic act of driving a golden stake into the ground, signified our dominion over the land and our commitment to divine restoration.

A New Dawn for America

As the land of Fort Necessity embraced our prayers and swallowed the golden stake, we felt a profound shift. The readiness of the earth to

receive our intercession marked a new dawn for America. We stand on the cusp of a spiritual revival, poised to reclaim our birthright. The readiness of the earth received our intercession and marked a new dawn for America. We stand on the cusp of a spiritual revival, poised to reclaim our birthright and fulfill the divine destiny envisioned by our fore fathers. **Emancipation and the Appeal to Heaven** Our journey of repentance and restoration is not just about healing past wounds; it's about paving the way for future generations. By addressing the root causes of division, rebellion, and dishonor, we aim to prevent the escalation of conflicts and the outbreak of a World War III. Our appeal to heaven is for emancipation from the spiritual strongholds that have bound our nation and for the restoration of liberty, honor, and divine alignment. Beloved community, let us continue to pray and work together to restore America's spiritual birthright. Through faith, repentance, and unity, we can heal our land and fulfill the divine vision that has been entrusted to us.

The Journey of Divine Guidance

Honoring the Patriots: Our Journey to Pennsylvania

Our trip to Pennsylvania as a team was one of the most important I have ever been on concerning our nation's birthright. We took time to honor all the men and women who fought and gave their lives for our Freedoms. All the wars, from the French and Indian War to the Revolution and Civil War, even caused a World War that changed the world from that point. All these wars fought from then until now have brought us this far to become the greatest Nation on earth.

The Laurel Cave

Experience: A Divine Encounter

On April 22, 2024, we traveled to the Laurel Cave in Fayette County, Pennsylvania.

Laurel Cave was the first step the Lord gave us on our journey to heal the land. Going into the cave was something I always wanted to do but was apprehensive. But I heard the Lord say he was sending us and would take care of us. The week before, we were warned by the weather forecasters that there would be a lot of rain.

That didn't happen; we had beautiful sunny days while we were there to go

the Lord. Wow! - Carol Jontry ###

about the Lord's work. Praise God! We went to learn more about underground railroad and found the staff friendly, and as they explained more about the history of the caves, we all chose to go on the tour. I didn't know that a cave could have a ceiling with rainwater running down onto the floor, which caused the floor to be muddy. So, as you can imagine, it was a short trip into the cave. So, with muddy shoes, we returned to the tour's beginning. But this was not the end of our tour. Gloria started to sing as she walked with me, and I decided to join her happy chorus. The song we sang was from "I Keep Falling in Love with You," an old familiar Elvis song. We changed the lyrics a little to sing about Jesus. The words were, "I keep falling in love with him (Jesus), and we just kept repeatedly singing the lyrics. Then we started to dance, and others in our group joined us. To add to the glory, colored lights began flashing in the cave, where we sang and danced. The lights were programmed to respond to our singing! Hallelujah! The tour guide then announced to our group that this room in the cave was called the CHAPEL! Wow! God is so good; we felt his presence and his pleasure that we were there in the cave. Thank you, Lord, for letting us praise you under and above the ground. The whole earth is full of your glory! Our tour guide happily confided that this type of praising the Lord spontaneously happens often in this chapel in the cave! We left after we prayed for our guide. I felt recharged with the peace and love of

fort was to declare freedom and liberty from the past trauma that had occurred there. They believed God had brought them back there to cleanse the land and return it to its original DNA before the battle. Some of the information they learned about our first president came from a one-page flyer they received at the fort. The information was from National Park Service flyer. The article stated, "On July 3, 1754, troops commanded by 22-year-old Colonel George Washington were defeated by a force of French and Native Americans at this small enclosure in the wilderness. This opening battle of the French and Indian War began a seven-year struggle between Great Britain and France for control of North America and set the stage for the American Revolution". This information confirmed to the team how critical this fort was to our nation. There was a significant moment for our future first Commander-in-chief and president of our emerg-

ing and struggling country at this little fort in Pennsylvania.

It happened when the British Commander Braddock was killed by the French early in the battle because he did not listen or adhere to the military

strategies of Colonel Washington and the Native American guide. Because of the death of Braddock, Colonel Washington assumed the command of the battle at the fort and was the only officer alive on his side. Washington had lost 70 men in the battle at the fort. The French officer who prepared the surrender papers did so in the French language. Unknown to Washington, the French officer had included a false statement that Washington had assassinated the French Officer, Jumonville.

Between not knowing the French language and the rain at nighttime, it was difficult to read and understand. But Washington at age 22 unknowingly accepted the agreement that he had been accused of assassination. Washington later denied that accusation after he

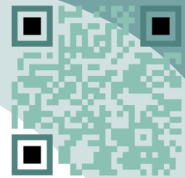

found out about it and was found not guilty later in his career. This was a lie and could have cost Washington his military career and then the presidency! It was also a miracle that Washington was not shot in the battle, as officers are usually the main targets of the opposing side. There are legends of Washington that state there were many bullet holes in his coats and hats, but none ever pierced him. Later on, as we

Healing Our Nation: The Intercessory Journey to Fort Necessity

The journey to intercede for our nation to become whole again!

In response to Ruth's prophetic word on April 17, 2024, from the Lord on beginning to heal our nation from past wounds. A team of five intercessors who love, pray, and obey the Lord headed from Illinois, Texas, and Ohio to Pennsylvania. The first part of their journey to the Fort Necessity National Battlefield in Pennsylvania was simply scouting out the land and the fort. The second time they made it to the fort, they were enlightened by the video and media presentation that taught them about the battle that had occurred there over 200 years before. God ordained the third visit, and they worshipped and praised him by singing and dancing at the fort. After that, they thought that the reason God had called them specifically to this

What Does Mussolini, Port of Otis-Rome, CERN, Have to do with Chicago?

The trip to Chicago, on April 20, 2024. We first went to McCormick Place. We did not intend to go there but found ourselves there while trying to get to the Balbo monument. We tried to get past it, but the street was blocked. We tried to go around it, but the road led to the underground parking area. We finally realized that it was one of the stops on our list to pray for the Democratic convention and needed to pray before leaving. After praying, we found our way to the Balbo monument, made of a limestone base with Fascist symbols set up by Benito Mussolini for the 1934 World Fair. It has an ancient pillar from a Roman port city. The Italian dictator gave it as a gift to commemorate the successful flight of 24 Italian aircraft from Rome to Chicago. The flight was led by Italo Balbo, the head of Italy's air force. We prayed about the spiritual consequences of receiving such a gift and planting such a seed in our soil. We also planted some things of our own.

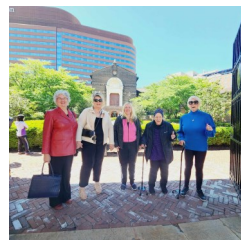

Next, we went to lunch. But on the way, we heard some warfare worship from Gloria's harp. She was led to lift it through the open skylight in the van as we drove. The wind played a powerful sound. After lunch, we headed to Batavia, IL, the location of Fermilab (CERN). At Fermilab, we discovered yet another manifestation of God's favor on us. We could go into this gated, guarded compound and move about freely. We did not go inside any buildings, as it was Sunday, and most were closed. We did see the Buffalo, and after we prayed, it was as if they suddenly felt the need to rejoice by leaping. Before we finished praying, they seemed like sleepy zoo animals. It was quite a transformation to behold! ### - Beth Peters

prayed, sang, and worshipped at the restored fort, we sensed the trauma and the losses of the countless men; they were dads, brothers, grandpas, and beloved family members. These brave men sacrificed their lives for our new country. This was just the start of the price it cost this nation and its people on all sides to be a free nation under God! Side note: We were so blessed by the staff at Fort Necessity and their help.

A New Weapon of War: Discovered Downtown Chicago

Worship music is my first love, and a few highlights stood out. In Chicago at the monument on the Lake, I forgot to release the sound of the harp over the water when we prayed over the waterways. As we were leaving through the city to go to the CERN Lab, we saw a statue of a topless woman holding a harp in her hands. She's an idol positioned near the University campus, meant to be a picture of song and sound. Holy Spirit rose in me and said, "No! Only Yahweh's sound is to be released here!" I sensed that NOW was the time for the harp sound to be heard as we passed the statue and drove through downtown Chicago. I took the harp and held it up through the sunroof to catch the wind (breath of God) as we drove slowly, and a brand new sound of warfare was released throughout the city. The whole team sensed a significant thrust in the force of our warfare, and we saw an angelic host released in more substantial numbers as the sound cleansed the atmosphere, joining with all the worship and intercession ascending from Chicago. It sounded like a screaming eagle!

While in worship and prayer, on the first day in Pennsylvania, the Holy Spirit took me into Revelation 5. As I watched the scene unfold, my spirit was going through the deep grief as perhaps John felt when he wept because no one was worthy to open the scroll. There came an intense and overwhelming longing, a deep groaning in my spirit, for the scroll to be unsealed! I heard the Holy Spirit say that this scroll was the original design God intended for all humanity – our holy birthright – to be God's forever family, living as one in Him, ruling and reigning with Him, when Adam and Eve sinned, the relationship was broken, Satan stole our birthright, and the scroll was sealed. But the Lion of Judah, the Lamb slain BEFORE the foundation of the world (Jesus), has come and is worthy to redeem all humanity and open the scroll for the fullness of God's original design to be restored and fulfilled. The same is true of America presently. The Lord said we would attend Ft. Necessity to restore America's birthright. Our obedience to this assignment to Ft. Necessity aligned us with what John saw happening in Revelation five and we agreed with heaven to manifest the same action on earth now—the full redemption of America's birthright (her scroll).

A New Weapon of War Continued From Pg. 3

This encounter confirmed their purpose and pointed us to worship His holy worthiness. The day we went to Ft. Necessity, we faced many challenges, including delays. God was faithful in our time there to help us accomplish all He desired, including releasing worship with flags, banners, drums, harps, and shofars in many ways. Part of our mandate was to release 'explosive, radical worship' and we had experienced some, but as we prepared to leave, I still sensed there was a sound, a frequency, a tipping point we had not yet reached to pour out onto the ground and into the heavens. While in the parking lot, we paused to enter a portion of worship with Jesus Image online, and He took us into the presence of His holy glory! We sang, shouted, basked, danced and knew we were rejoicing with heaven on earth in exaltation of the Ancient of Days. The travel team and Home team worshipped AS ONE! Heaven and earth exploded in worship AS ONE!!! Thank You, Father, we hit Your mark! HALLELUJAH! - Gloria Browne ###
